SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Powered Platforms for Building Maintenance Standard information collection. Requirements codified in regulations 29 CFR 1910.66 provide that an Occupational Safety and Health Act (OSH Act) covered employer subject to the Standard develop and implement a written emergency action plan for each type of powered platform operation. The plan must explain the emergency procedures to follow upon encountering a disruption of the power supply, equipment failure, or other emergency. More specifically, the Standard requires the employer to develop and maintain a written emergency action plan and work plan for training; affix a load rating plate to each suspended unit; label each emergency electric operating device with instructions for use; attach a tag to one of the fastenings holding a suspension wire rope; and prepare and maintain a written

certification record of the inspection and testing of each building-support structure component of a powered platform, powered platform facility, and suspension wire rope. OSH Act sections 2 and 8 authorize this information collection. *See* 29 U.S.C. 651, 657.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. *See* 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1218-0121.

OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the *Federal Register* on May 22, 2017 (82 FR 23312).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the ADDRESSES section within thirty (30) days of publication of this notice in the *Federal Register*. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1218-0121. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
